THE TEXNESSEE BIVER VISIT. The significance of the splendid movement through Tennessee and into Alabama was but half appreciated at the first announcement; for the reason, in part, that it was not fully understood what had been done. We hesitated at believing that the Union boats had gone so far, and thought there must be some mistake in the first dispatches on that pnint. They did, however, pass through two States, and beyond Tennessee, the Armstrong farm, was owing to the aup pieroing the shell of the confederacy, and coming unexpectedly upon large that the price paid for work on the Hallbodies of men, or populous districts road would become the standard price for rather, with whom the love of the Union day labor in the city. This matter is was as strong as ever, and who came forward to welcome the fing with enthus sam, and to welcome its bearers as friends. It is hardly possible to axaggerate the importance of this triumphant entry into the inner territory ruled now by the confederate leaders. We find hire." their hold on it to be that of force only, that it is at heart loyal, and worthy to return to that equal Union which has been the glory of the age.

This event has done so much to ou cisive attack upon the armies of the rebels, and their defeat and discomfiture, Tilley, he woke up this morning not only would open every other river and every to find his dog dead but his news pro-Buckner's army were defeated at Bowlriver might witness an equally peaceful sweep into central Tennessee. The barrier against us is in the armed bodies of rebels only, those who have been gathered and made to fight by the well managed domestic coercion of their leaders. If the Manascas army were besten, another such could never be gethered. It is not dangerous, strange to BBY, to go into the heart of the south; it is dangerous only to fight them on their border. There they do fight with some energy, and so long as they can in that way maintain themselves, can prekeep up the gigantio sham which constitutes the rebel authority.

It has heretofore been impossible to

persuade our authorities that this vital point had anything in it, hard to make rious results as this reconnoisance in Tennessee, Alabama and Mississippi.—

A WORD OF CAUTION.

A WORD OF CAUTION
IT It has been estimated that over Two Hundred Thomsone Dollars are paid to swindling quacks annually in New England alone; and that, too, without any benefit to those who pay it. All this comes from trusting, without inquiry, to men who are callie, destitute of hone; character or skill, and whose only recommendation is their own take and extravagant assertions, in praise of themselves. The only way to avoid imposite or is to take up on man's word, no matter what representant are, but MAKE in-QUIRY. It will cost you nothing, and may save you many regrets; for, as advertising physicians in mine case aut of ten are begun, there is no safety in trusting any of them unless you know who and what they are.

Dr. M. will soud free, by enclosing one stamp as above, a Pamphlet on D181-ASES OF WOMEN, and on Private Diseases generally; giving fall information, with the most undoubted references and testimonials without which no advertising physician, or medicine of this kind is desayving of ANY CONFIDENCE WHATEVEIL.

Cephalic Pills,

CURE ALL KINDS OF HEADACHE

By the use of these Pills the periodical attacks of Nervous or Sick Headachs may be prevented; and if taken at the com-menciment of an attack, immediate relief from pain and sickness will be obtained. They saldom fall in removing the Naussa, and Headache to which females arees sub-fact.

They seldom fail in removing the Naussa, and Hadsche to which femiles are so subtified.

They act gently upon the bowels,—remering Couttveness.

For Literary Men, Students, Delicate Females, and all persons of sedentary habits, they are valuable as a Lozative, improving the appetite, giving tone and vigor to the digestive organs, and restoring the natural elasticity and stiength of the whole system. The OEPHALIC PILLE are the result of long Investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from Headsche, whether originating in the mericular system or from a deranged state of the stomach.

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of conductions of the stomach of th
